DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected as failing to define the invention in the manner required by 35

U.S.C. 112, second paragraph.

The claims are narrative in form and replete with indefinite and functional or operational language. The product or process must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete product or process. The claims must be in one sentence form only.

Citation of Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent 6,101,050 to Binnix teaches a method of antiquing a mirror using a silver patina.
